

JEAN-BAPTISTE BELLYNCK

MSC. MATHEMATICS STUDENT

jean.bellynck@student.hu-berlin.de
<https://jeanbellynck.github.io/>

EDUCATION	Humboldt University of Berlin <i>Mathematics Master of Science</i> • Current classes: Differential geometry III, Topology II, Functional analysis	Berlin, Germany 2025 - 2027 (<i>expected</i>)
	Ludwig-Maximilians University Munich <i>Mathematics and Computer Science Teaching (Staatsexamen)</i> • Thesis advisor: Prof. Sebastian Hensel • Thesis subject: Word problem of groups	Munich, Germany 2019 - 2025
	University of Osaka <i>Research year as an exchange student</i> • Research advisor: Prof. Eiko Kin • Research subject: Train track splitting sequences of pseudo-Anosov homeos	Osaka, Japan 2023 - 2024
ACADEMIC TEXTS	1. Jean-Baptiste Bellynck, Eiko Kin. Agol cycles of pseudo-Anosov maps on the 2-punctured torus and 5-punctured sphere. Arxiv Link, 2024. 2. Jean-Baptiste Bellynck. Construction of a group with unsolvable word problem. (Bachelor thesis) pdf Link, 2024.	
PROJECTS	Graphicayley Webapp <i>Browser app that draws Cayley graphs from a given presentation. Try it out!</i>	2023 - today
	Personal Wiki <i>Personal database with 2k lecture and conference notes. Look inside!</i>	2021 - today
TEACHING & WORK EXPERIENCE	Illustrations for Prof. Dr. Kotschick's most recent book <i>Prof. Dr. Dieter Kotschick</i>	Mar. 2025 - Aug. 2025
	Tutoring and grading exercises in Algebra and Number Theory <i>Dr. Ralf Gerkmann</i>	Oct. 2024 - Feb. 2025
	Software development <i>Lösch & Partner GmbH</i>	Mar. 2022 - Jun. 2023
	Tutoring in Software development practical <i>Prof. Dr. Stefan Barth</i>	Oct. 2021 - Feb. 2022
	High-school teaching practical training <i>Oscar Maria Graf Gymnasium Neufahrn, Germany.</i>	Sept. 2020 - Aug. 2021

REFERENCES	Contact the following people if you need a reference.		
	Prof. Dr. Sebastian Hensel (hensel@math.lmu.de): If you need a detailed but general report or if you are interested in my academic development.		
	Prof. Dr. Eiko Kin (kin.eiko.celas@osaka-u.ac.jp): If you are interested in how I collaborate with mentors on a common paper.		
	Dr. Ralf Gerkmann (gerkmann@math.lmu.de): If you are interested in how I teach students.		
	Prof. Dr. Jonathan Bowden (bowden@math.lmu.de): If you are interested in how I present and prepare for seminars.		
SKILLS	Prof. Dr. Dieter Kotschick (dieter@math.lmu.de): If you are interested in how professional work with me feels like.		
ATTENDED CONFERENCES	Languages: German (Fluent), English (Fluent), Japanese (Fluent), French (B1), Polish (B1).		
	Programming: Python, C++, Java, MATLAB.

MASTER LECTURES AND SEMINARS	Lecture: Differentiable Manifolds <i>Prof. Dr. Sebastian Hensel.</i>	WiSe 2022
	Lecture: Riemannian geometry <i>Prof. Dr. Sebastian Hensel.</i>	SoSe 2023
	Lecture: Stability of non-proper functions <i>Kenta Hayano. Seminar page.</i>	WiSe 2023
	Seminar: What is...? <i>Kento Sakai. Seminar page. The slides of my talk</i>	SoSe 2024
	Seminar: Hyperbolic geometry and Fuchsian groups <i>Prof. Dr. Jonathan Bowden, Prof. Dr. Sebastian Hensel. Seminar page.</i>	WiSe 2024
	Seminar: Geometry and Dynamics of Homeomorphisms in Dimensions 1 and 2 <i>Prof. Dr. Jonathan Bowden, Prof. Dr. Sebastian Hensel. Seminar page.</i>	WiSe 2024
	Seminar: Aspects and Applications of Representation Theory <i>Prof. Dr. Ulrich Bauer, Prof. Dr. Sebastian Hensel. Seminar page.</i>	WiSe 2024
	Bachelor-math, computer science, psychology and teaching lectures have not been listed.	
INTERESTS	I like to do music, particularly to sing. During my high school years I played the violin and viola in the Regensburg Junior Classic Orchestra and trumpet in the Blaskapelle Donaustauf. I used to be part of the Romanistikchor Munich. Currently, I sing in the Munich University Choir.
